BARREL AND BOLT HIPPO CREEK SHOOTING CENTRE

BACK TO BASICS SHOTGUN SHOOTING COACHING

Thank you for your enquiry into my shotgun coaching sessions.

This is the first step into improving your clay target shooting abilities.

My philosophy is that clay target shooters tend to focus too much on lead and neglect the basics like gun fit, shooting point, foot position, hold points and gun mount.

The training sessions will be aimed at

- 1) Answering any questions
- 2) learning new techniques
- 3) improving scores
- 4) Help with problem targets specific to your needs

I cannot teach you to shoot 25 straight, but I can teach you the correct approach and techniques. When these are applied and practised, you will teach yourself to shoot straights more frequently.

BACK TO BASICS SHOTGUN SHOOTING COACHING

When: We will discuss a time and location that will best fit in with your schedule and needs

How it works: There will be 2 slots available on the designated day. You can choose to take up 1 slot or both

Times 9am-12pm & 1pm -4pm

Where: Our premises and preferred coaching facility is Hippo Creek Shooting centre, however, I am willing to travel to any other club to assist with coaching

Cost involved:

R2500-00 per 3-hour session if only 1 session is booked.

R2200-00 per 3-hour session should you book two sessions in a day or arrange with a fellow shooter to take up the other session on the same day.

Cost does not include the following

- ammunition (recommended 250 cartridges per 3hour session)
- cost of rounds at range (subject to the club's fees)
- food and drink
- If club is outside of Gauteng, travel costs will be charged.

Some people may be very experienced shooters, but find they have reached a ceiling in their scores, and no matter how many cartridges you throw at the problem it feels like you have stagnated. You might want to start right at the very basics of clay shooting. This will require a few more lessons, as there is plenty to cover and old habits can be hard to break.
